

GREECE

My country is Greece. The capital of Greece is Athens. Greece's population is 10, 72 millions.

Greece borders on northwest with Albania, on the north with Macedonia and Bulgaria and northeast with Turkey.

The highest mountain in Greece is Olympus and the biggest island is Crete. One of the biggest plains in Greece is the plain in Thessaly. The longest river in Greece is Aliakmonas and the longest lake is Trihonida.

The weather in Greece is mild. Rarely in the summer, the weather is rainy but often is hot. In the winter, the weather is cold, rainy and snowy.

Greece has got many parts that you can visit. One of them is the Acropolis museum. It's very beautiful! Some other archaeological sites are the Mycenae in Peloponnese and the Knossos in Crete. Also one of the most picturesque islands for summer vacations is Santorini.

I like my country because it is unique and special. It has magical places with dreamy landscapes!
