

GREECE

My name is Konstantinos, I am from Greece and I live in Euboea in Aidipsos. Athens is the capital city of Greece. Greece's population is 10,7 million. Greece is in southeast Europe. It shares borders with Albania and Bulgaria to the north and with Turkey to the east.

Greece has many mountains like Olympus, Parnassos and Giona. It has many and beautiful islands. The largest is Crete and my favourite island is Santorini. Also it has wonderful plains, the largest is in Larissa. Greece has many rivers like Aliakmonas, Mornos and Pinios. Also it has many lakes like the lake of kyra Frosyni which is located in Ioannina.

Greece is a hot country but sometimes the temperature drops and it snows. The temperature in winter drops in 6 oC and it rains and snows. The temperature in summer rises in 40 oC. Greece has a mild Mediterranean climate.

Greece is famous for the Acropolis, which is located in Athens. Another sight is the White Tower in

Thessaloniki, Meteora in Thessalia and famous islands like Mykonos and Santorini.

I like Greece very much because it has many beaches and beautiful islands. Also my favourite hobby is to go outdoors for a walk and travel in different places in Greece.
